

# INFORMATION SECURITY STATEMENT

At Keystone Property Finance Limited (KPF), safeguarding information is a core priority. We operate under strict security protocols to ensure compliance with the Data Protection Act 2018, GDPR, and the Computer Misuse Act 1990. Our approach is designed to protect client data, maintain confidentiality, and ensure business continuity.

## **Our Commitments:**

**Data Protection:** All information is protected against unauthorised access, modification, or disclosure.

**Secure Systems:** Access to systems is controlled through strong authentication, encryption, and secure cloud storage

**Physical & Network Security:** Offices are secured with restricted access, and only company-approved devices connect to our network.

**Device & Password Management:** All company devices are encrypted and protected by robust anti-virus software. Passwords meet strict complexity standards and are securely stored.

KPF is committed to maintaining the confidentiality, integrity, and availability of information, ensuring that client data is always handled responsibly and securely.
